Time: 9:30 – 16:30

Please join us for a work-in-progress session featuring many of the submissions for the Cambridge Compendium of International Commercial and Investment Arbitration. The most innovative element of the Compendium lies in various topics being addressed from both a commercial and an investment arbitration perspective whenever appropriate in order to highlight the commonalities as well as the differences between both fields. We welcome your attendance at this session as a means of introducing you to the Compendium project and also of inviting audience members to lend their expertise to strengthen the chapters to be presented. The event is graciously hosted by the University of Vienna just prior to the commencement of the 24th annual Willem C. Vis International Commercial Arbitration Moot.
